RE: Machine Assisted Archaeological Survey
Longmeadow Segment, Warwick Sewer

Dear Mr. Leveillee:

The Rhode Island Historical Preservation and Heritage Commission has reviewed PAL's summary report of the above-referenced survey. The machine trenching conducted for the Longmeadow segment did not result in the location of any archaeological sites. We therefore conclude that sewer construction within this segment will have no effect on any significant cultural resources (those listed on or eligible for listing on the National Register of Historic Places)

These comments are provided in accordance with Section 106 of the National Historic Preservation Act. If you have any questions, please contact Charlotte Taylor, Staff Archaeologist, at 222-4140.

Very truly yours,

Edward F. Sanderson
Executive Director
Deputy State Historic
Preservation Officer
